

#### Current status

- Database is non-functional
- Home/user profile is functional
  - Pending on Database functioning
- Navigation bar is functional
  - Pending on Database functioning
- Registration bar is functional
  - Pending on Database functioning

#### Goals from TA

- Complete basic functionality by end of week 3
  - All stories assigned and worked somewhat
- Upgrade and polish by end of week 4
  - 80-85% complete
- Give specific answers to questions
- Work on code base and start making commits to git
  - Successfully implement features
- UI is low priority
- Define more user stories that are specific to our project's features

#### Project description

- Search bar for projects
